

Revision History/ Project Log

REV	COMMENTS	DATE	INITIALS
1.0	First pass of the schematic has been completed. Placement of the components has been completed. All passive component footprints are 0805(M). Top pour is GND, bottom pour is VCC.	2018-JAN-27	NAS
1.0	Still need to complete the MCU subsection and connections back to the PC.	2018-JAN-28	NAS
1.0	Schematic finished, PCB layout & routing finished. All components selected. Generating all outputs, including BOM and gettings quotes started for FAB.	2018-FEB-03	NAS

Colpitts Oscillator

Power

Mounting

Notes:

- 1. MECH4 is board outline
- 2. MECH1 is component outline
- 3. MECH3 is text (placement insights)
- 4. Hex nut comes 100 per package
- 5. Pan head screws come 100 per package
- 6. *Note: (R*) is a zero ohm jumper 0805 footprint in case an additional capacitor is required
